PROFESSIONAL SUMMARY

Motivated third-year Software Engineering student at Botho University seeking a hands-on internship for 2026. Proficient in Java, C#, .NET, Object-Oriented Programming, and JavaScript with experience building academic projects using modern development tools. Strong problem-solver who writes clean, documented code and thrives in team environments. Eager to apply software development principles to real-world challenges.

EDUCATION JOURNEY

Primary education

BELA-BELA PRIMARY SCHOOL

S.t THERESA PRIMARY SCHOOL

HEBRON JSS in Matatiele South Africa in 2013

MABOEE A.C.L

SECONDARY AND HIGH SCHOOL EDUCATION

MAFUBE ENGLISH MEDIUM HIGH SCHOOL

Botho University | Maseru Campus

BSc(Hons) in Computing (Software Engineering Track)

Expected Graduation: July 2028

Current GPA: 3.5+ | Dean's Award

Year by Year Progress:

- Year 1 (2025-2026): Foundations

- Introduction to Computers, Mathematics for Computing
- Discrete Mathematics, Computer Systems & Hardware
- Querying and Managing Databases
- Communication and Study Skills

- Year 2 (2026-2027):

- Object-Oriented Programming, Data Structures & Algorithms
- Database Design, Web Development
- Software Testing, Agile Methodologies
- Linux Essentials, IT Project Management

- Year 3 (Current - 2027-2028):

- Software Engineering, Programming using .NET
- Programming using Java, Advanced Java
- Database Management using Oracle
- Capstone Project (In Progress)

TECHNICAL SKILLS

Languages: Java, C#, JavaScript, SQL, C++

Web Technologies: HTML5, CSS3, JSP, Servlets, React.js, Node.js

Databases: MySQL (XAMPP), Oracle, MongoDB

Tools: Git, GitHub, VS Code, IntelliJ IDEA, Apache Tomcat

Methodologies: Agile/Scrum, OOP Principles, REST APIs, Debugging

PROJECTS

BothoClinicManagement (October 2025 – Present)

Desktop Application | C# | MySQL

- QR-code-based attendance system – reduced roll-call time by 30%
- Secure login with role-based access + MySQL database integration
- Real-time QR generation/scanning | Git/GitHub collaboration

SmartCropIrrigation (February 2026)

Web Application | Advanced Java (JSP, Servlets) | MySQL (XAMPP)

- Smart irrigation recommendation system using crop/soil/weather data
- Applied inheritance, polymorphism, and encapsulation
- User login, crop management, irrigation logging

- Deployed on Apache Tomcat with XAMPP database

PABALA_ERP (April 2026)

Web Application | HTML, CSS, JavaScript | MySQL (XAMPP)

- Complete ERP system for cosmetics company
 - Sales, Customer, Supplier Management + Reports Dashboard
 - Credits & Payments tracking module
 - Responsive frontend + relational database design
-

CERTIFICATIONS & ACHIEVEMENTS

- Dean's Award – Academic Excellence (GPA 3.5+)
 - GitHub Foundations (In Progress)
 - Agile with Atlassian Jira (Coursework)
-
